A daily communication will be sent (P12 will use Class Dojo and P14 will use email). This information will need to be checked to ensure that you understand which learning tasks from the home pack need to be completed each day. Some will involve YouTube clips and the use of other websites. When this is the case a link will be provided. We will be able to respond to emails/Class Dojo messages to clarify any questions that you or the students have. We will also be calling by phone to ensure that you are receiving the information that you need and to see if students are understanding what is required of them.

Children that currently have SSO support will be receiving weekly phone calls to touch base with their learning as well as their health and wellbeing.
