

J2, J3 and J4 Science

Term 2, Week 1

Use the Inventor Scavenger Hunt below as a guide to explore your house.

How many items can you find?

Discuss your findings with an adult

Activity: Record some of your items on the recording sheet.

Glue the recording sheet into your home learning book.

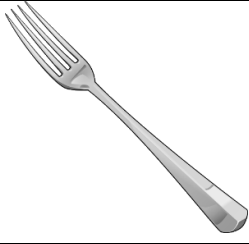

INVENTOR SCAVENGER HUNT

primary playground

- Find something that you can turn.
- Find something that is bumpy.
- Find something that is metal.
- Find something you put together.
- Find 3 things that are round.
- Find something you twist.
- Find something shiny.
- Find something you can roll.
- Find a tube.
- Find 3 things that are squishy.
- Find something clear.
- Find something that can bounce.

Science, Term 2, Lesson 1

Draw and label your item	What do you think it is made of?
 <p>fork</p>	metal

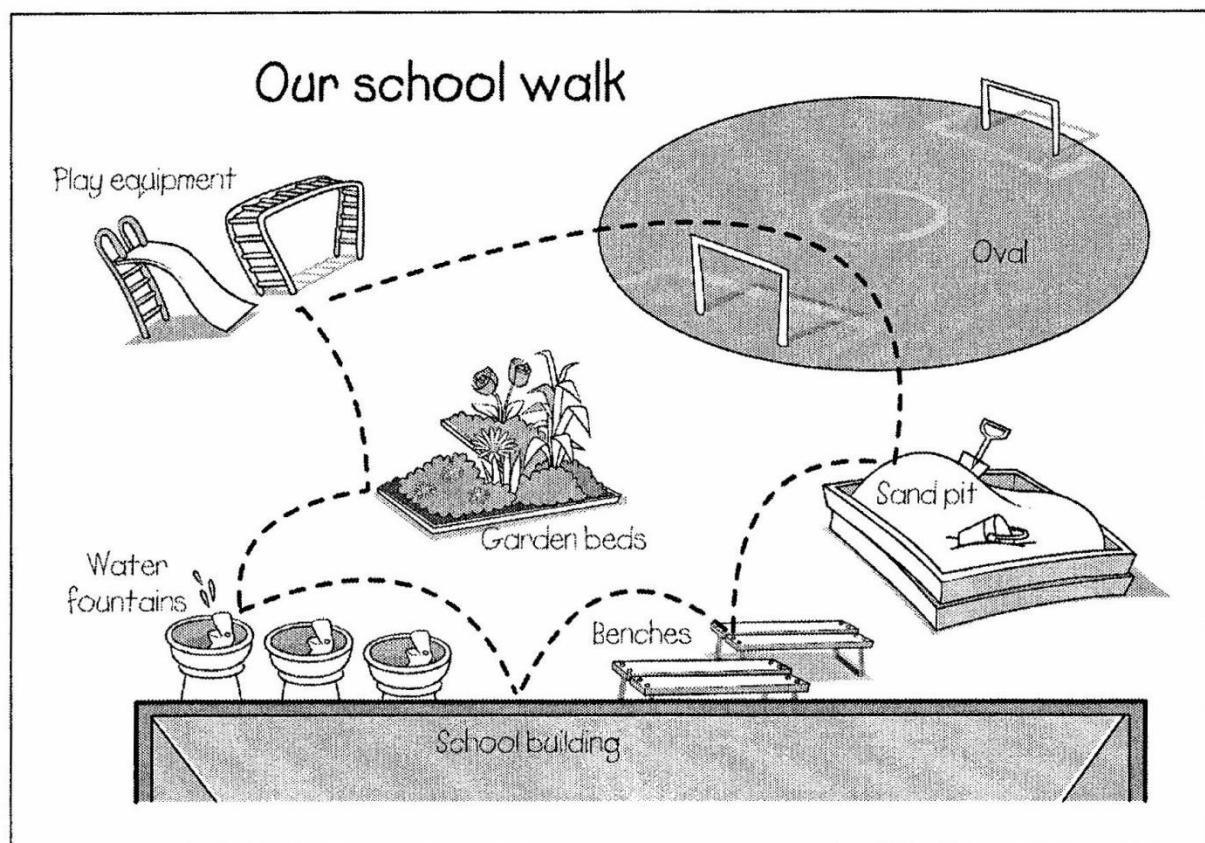

J2, J3 and J4 Science

Term 2, Lesson 2

Think back to last week and the walk you took around your house to find your scavenger hunt items. Where did you find them? Inside? Outside? In a cupboard? In a toybox?

Activity: Draw a picture map in your home learning book of your walk showing where you found some of your items.

Here is an example of a picture map

The dotted line represents where you walked

Don't forget to date and label your walk and the items you found!

Instead of drawing you may like to take pictures and print them out and glue them onto your walking map
